Introduction

In pursuance of the Action Plan for performance evaluation, assessment & accreditation & quality up-gradation of institutions of higher education, NAAC proposes that every accredited institution should establish an Internal Quality Assurance Cell (IQAC) as a post-accreditation quality sustenance measure. Since quality enhancement is a continuous process, IQAC becomes a part of the institution's system that will work towards the realization of the goals of quality enhancement & sustenance. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement for the overall performance of the institution.
