Quality Policy

To pursue excellence via quality-oriented education by adhering uncompromisingly to standards of excellence and quality.

The college tries to achieve this by:

- Adopting innovative and technologically oriented teaching methods.
- Developing an academic and research ecosystem congenial for innovation
- Interactive, student-centric modes of teaching and learning
- Training for students centered on competitive exams and professional courses
- Introducing students to Digital resources
- Re-orienting administrative and academic system as per novel standards
- Quality centric analysis of all stake holders including the faculty
- Periodically reviewing the quality process
